PROFILE

Graphic Designer and Creative Technologist with experience in fashion. I create generative visuals for automotive and fashion/apparel, build creative workflows in ComfyUI and Weavy, and bring a considered eye to post-production.

EXPERIENCE

Accenture Song

Creative Technology · GenAI Content Production

2025-2026 · 9 months

- Created generative AI visual assets, refining prompts and evaluating outputs against creative requirements.
- Built and refined ComfyUI workflows for visual consistency and repeatable production.
- Tested generative models and LLMs for creative production, adapting workflows to project needs.
- Prototyped and iterated on internal tools using AI-assisted development.
